

Malik Abdul Rehman Khursheed

Front-End Engineer

☎ 0304-5919-454 ✉ malik.ali5560@gmail.com 🌐 <https://www.linkedin.com/in/malik-abdul-rehman/>

Highly motivated and results-oriented Front-End Developer with 3.5+ years of experience crafting user-centric experiences and driving business growth across mobile and web applications. Skilled in front-end development (React, Angular), back-end development (Spring Boot, Node.js) with a strong focus on performance and maintainability. Proven ability to lead and mentor junior developers, implement best practices, and deliver high-quality, scalable solutions.

EXPERIENCE

Bazaar Technologies

March 2023 – Present

Software Engineer - II

Islamabad, Pakistan

- **Led a team of non-front-end developers** in building a **React** web app portal for Bazaar partners. Provided front-end development expertise and product insights, empowering the team to understand Bazaar's offerings and areas for them to contribute by implementing **Test Driven Development** and **Micro Front-ends**.
- Ensured design consistency by integrating Bazaar's custom component library into the web App portal (Front-end) for bazaar partners and following **SOLID principles**.
- Streamlined the Care team's workflow by implementing invoice generation and tax calculations for front-end order processing within the internal web app.
- Led feature lifecycle from design to delivery, including defining architecture, implementation, and unit testing.
- **Contributed to customer loyalty programs** in the by designing features for gamification and rewards through coin dispersal. Designed user-friendly, operationally functional, and visually appealing GUIs, contributing to a 47% increase in customer orders value.
- **Hackathon runner-up in an internal Bazaar Technologies event**

Orcalo Holdings

Oct 2021 – March 2023

Front End Engineer and Junior front end team lead

Rawalpindi, Pakistan

- Led a team of 24 newly hired front end developers, ensuring project completion as per requirements and integrating third-party tools.
- Developed feature-rich applications using **React**, **Angular**, and TypeScript for front-end development, handling logic implementation, client-server communication, and UI development.
- Implemented the **Component-Container** design pattern, separating presentation logic from business logic to ensure a clear separation of concerns.
- Implemented visually appealing interfaces, identified and rectified bugs, and ensured front-end code interacted seamlessly with APIs.
- Created unit tests to guarantee code functionality.

Orcalo Holdings

August 2021 – Oct 2021

Junior Node.js Developer

Rawalpindi, Pakistan

Orcalo is a UK based Company that has an offshore Company registered as Orcalo Pakistan.

As a Junior API Developer I was responsible for:

- Developed and maintained server-side components and APIs for services including airtable, twilio sms, twilio sendgrid.
- Documented Typescript process including database schemas.

Web Mechanics

Nov 2020 – Jun 2021

Software Engineer-Python Intern

Rawalpindi, Pakistan

- Developed responsive front-end designs for automobile-related products.
- Built REST APIs using Django to retrieve and present real-time data insights.

EDUCATION

Hitec University

2017 - 2021

Bachelor of Science in Computer Science (GPA: 3.29 / 4.00)

Taxila

PROFESSIONAL PROJECTS

Bazaar Partner Portal: <https://partners.bazaar.technology>

- Developed a React application for partner insights using React, MUI, and React Query.

Bazaar Main Website <https://www.bazaartech.com/> | *WebFlow, HTML, CSS, Vanilla JavaScript*

- Integrated dynamic job postings using WebFlow, HTML, CSS, and Vanilla JavaScript.

Check My DBS <https://app-dev.checkmydbs.co.uk/login> |

- Developed a web application for DBS certificate verification platform for UK companies using React, Next.js, Typescript, RTK query.

TECHNICAL SKILLS

Languages: Typescript, HTML/CSS, JavaScript, Kotlin (Intermediate level)

Technologies and Libraries: React.js, Next.js, React-router-dom, Redux, Scss, MUI, Android (XML and Jetpack compose), React-Query, MUI, Jest, Angular, Spring Boot, , Node.js, Nest.js, Express.js, Lodash, Joi, , Bootstrap 5, Segment- UI, Express.js

Developer Tools:: VS Code, npm, Git, Visual Studio, Grafana, Prometheus, Web Pack, Vercel, Postman, AWS (S3, Cloud Front, Route53), Docker, MongoDB, Nodemon, Swagger, Angular cli, Airtable, noCodeAPI, AWS Lambda, Netlify

Other Skills:: Test Driven Development (TDD), Followed practices like SOLID Principles, Small Releases, continuous refactoring and other agile Practices.

ACHIEVEMENTS & CERTIFICATIONS

- Hackathon runner-up in an internal Bazaar Technologies event
- Angular Course by Maximillian schwarzmuller from Academind
- React with Redux, Next.js etc. Course by Maximillian schwarzmuller from Academind
- AWS technical essentials from Coursera
- Microsoft MTA 98-381 Introduction to programming using python
- AI for everyone
- Nodejs course from Codewithmosh
- Speed Programming runner-up in university competition
