SUMMARY

Frontend engineer with ~5 years across B2C web for emerging-market users — including 3 years at scale at Bazaar. I specialize in Next.js / React performance: verified Lighthouse 92 and Core Web Vitals: Passed on a flagship app (100k+ web users, 1M+ Android downloads), and I'm sole author of a multi-tenant storefront platform on Next.js 16 / React 19. Comfortable across Node.js / NestJS for BFFs.

KEY ACHIEVEMENTS

- **Web Vitals & SEO turnaround** — Co-led the image-optimization + CDN-tuning pipeline (Next.js Image, viewport-aware lazy loading) on bazaarapp.com, cutting LCP by 40% and taking Core Web Vitals from failing to Passed under Pakistani 3G/4G conditions. Organic search grew from ~0 to **156K monthly clicks / 11.2M impressions** over ~10 months (Google Search Console, avg. position 7).
- **Multi-tenant storefront platform** — Sole author of the Keenu One storefront: one Next.js 16 / React 19 codebase serving multiple merchants on their own domains, with edge tenant-resolution, SSR + JSON-LD SEO and a manifest-driven theme system. First merchant live in production at sirocpk.com.
- **CDN cost optimization** — Co-designed asset delivery + caching strategy across web and Android, cutting CDN spend ~\$450/month with no regression in image quality.
- **Revenue-driving engineering** — Shipped PM-designed gamification (order-threshold reward levels) on the customer app, lifting average order value **47%**.

EXPERIENCE

Bazaar Technologies — Islamabad, PK

Mar 2023 - Present

Senior Software Engineer

Promoted from Software Engineer II in Dec 2024. Now building the Keenu One restaurant-commerce platform.

- Lead frontend on **bazaarapp.com** (Next.js + NestJS BFF) — flagship customer web for Pakistan's largest B2C grocery platform; owned the image + CDN pipeline and the MUI → Tailwind + Radix migration.
- **Sole author of the Keenu One storefront** — a multi-tenant ordering platform (Next.js 16 / React 19) serving merchants on their own domains; first merchant live at sirocpk.com.
- Contributed frontend to the **Keenu One merchant dashboard** (React + Vite), including the interactive map-based delivery-zone editor (Leaflet + Turf).
- Built **Bazaar Partner Portal** (React, MUI, React Query) — internal vendor-analytics surface integrated with Bazaar's component library.
- Replaced finance team's manual invoice + tax-calculation workflow with an automated pipeline integrated into internal apps.

Orcalo Holdings — Rawalpindi, PK

Oct 2021 - Mar 2023

Senior Frontend Engineer · Frontend Team Lead

- Mentored a team of **24 junior frontend developers** across multiple client projects.
- Introduced and enforced the **Component-Container** pattern across the FE codebase, separating UI from business logic.

- Integrated **React Query** into legacy Redux-heavy projects, cutting redundant API calls and improving cache behavior.

Junior Node.js Developer · Aug 2021 – Oct 2021

- Built APIs and server-side components against **Airtable**, **Twilio SMS** and **SendGrid** integrations.

Web Mekanics — Rawalpindi, PK

Nov 2020 – Jun 2021
